Ceres is the home design for those looking to indulge in an authentic holiday everyday lifestyle. Waking up in your upstairs master suite, homeowners can relish slow mornings here in the suite's adjacent retreat space while indulging in some morning caffeination courtesy of the convenient built-in kitchenette. Relaxation will also come easy with thanks to the luxurious freestanding bath that features in the opulent and spacious ensuite bathroom. With an expansive walk-in robe to boot, this master suite is a true sanctuary. There's no doubt this home design was developed with space in mind - from the welcoming open-plan living areas that flow effortlessly out to a separate covered terrace, to the additional multi-purpose room, to the convenient downstairs third bedroom/ensuite bathroom combination that's perfect for guests. There's also a double garage that offers space for two vehicles and a dedicated area for your golf car. Ceres ticks so many boxes.
